## USING THE INTERNET CONNECTION WIZARD

Connecting to the internet is quick and easy using Internet Connection Wizard. The Internet Connection Wizard helps you to sign up an account.

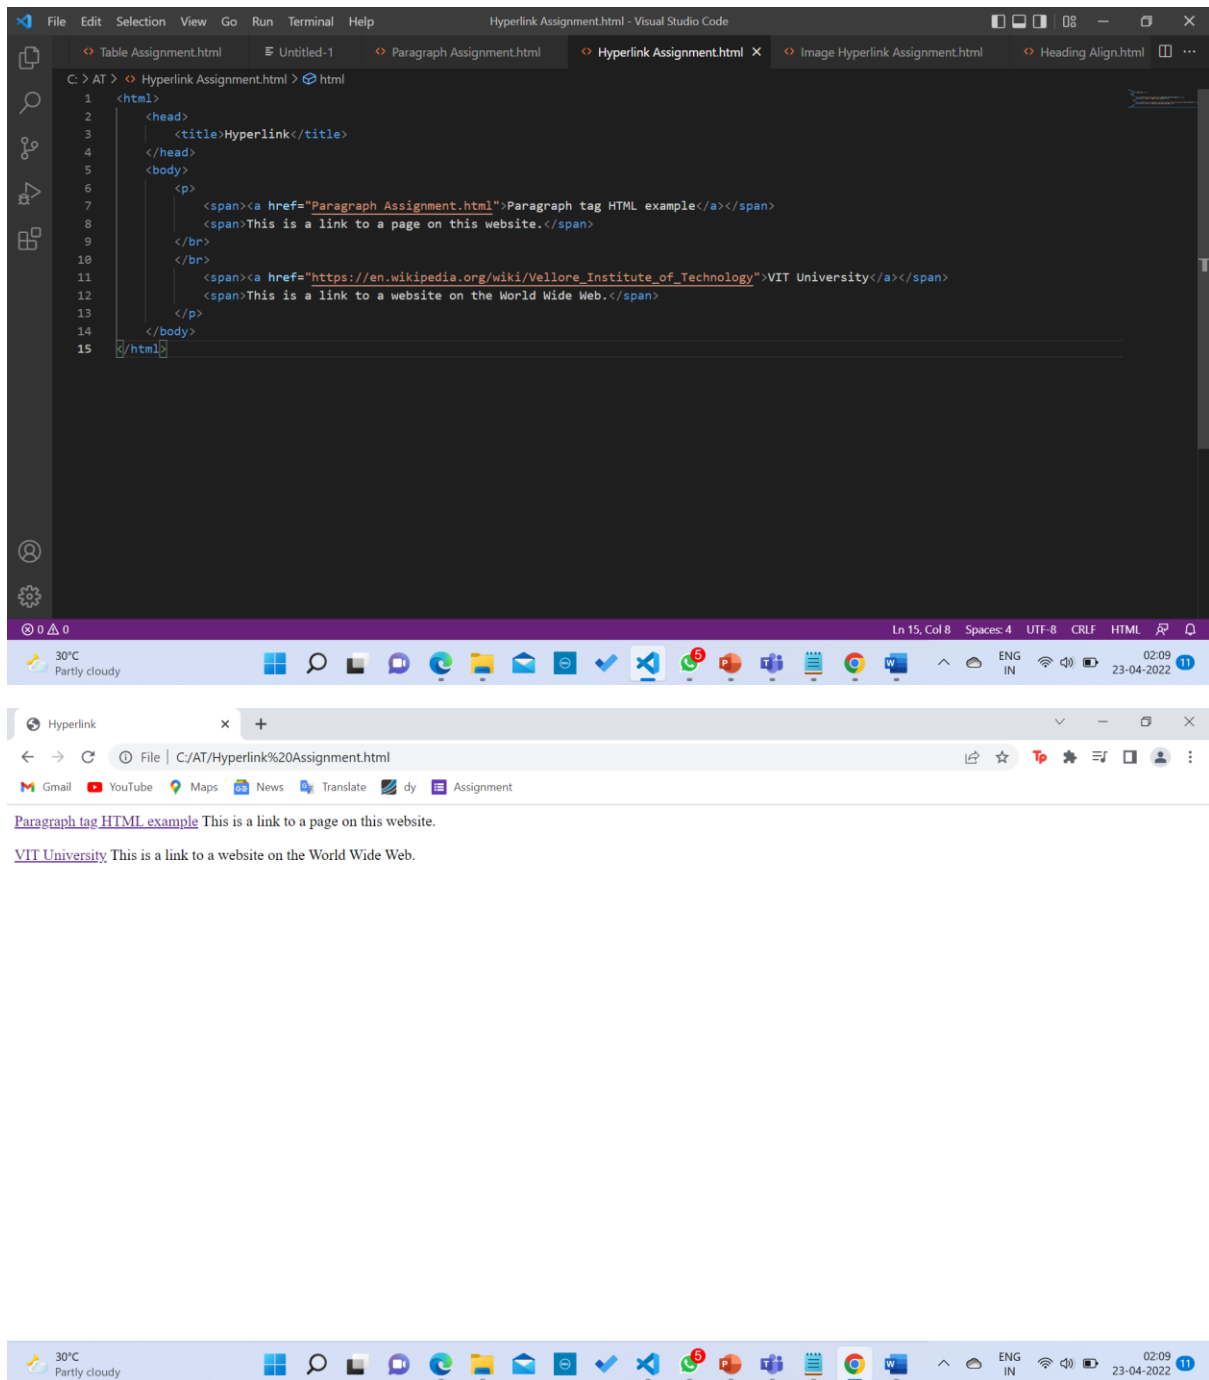

To start the wizard for the first time, double-click The Internet icon on your desktop. If you need to start an wizard again at a later time, click the Start menu, point to Programs, point to Accessories, ***point to Internet Tools***, then click Get On The Internet.

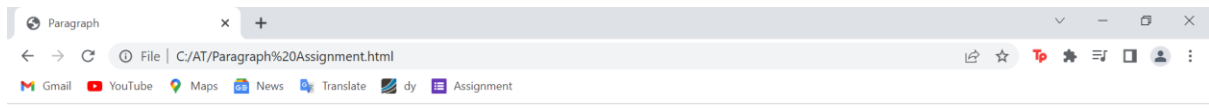

The Wizard connects you to the Microsoft Internet Referral Service. This service provides you with a list of the service providers available in your area. To determine which service providers are available, the wizard send the following information to the Internet Referral Service:

Field	Description
Country ID	The country from which you are dialling
Area/City Code	Your area or city code

## 2. Hyperlink

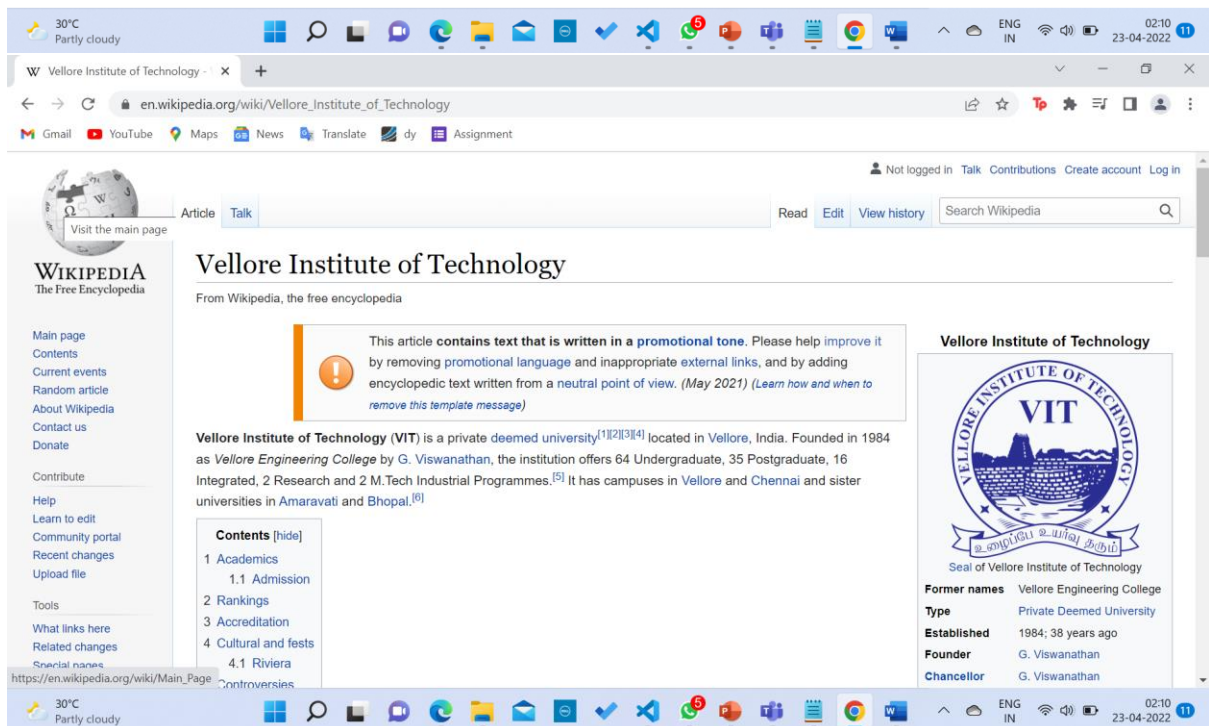

## USING THE INTERNET CONNECTION WIZARD

Connecting to the internet is quick and easy using Internet Connection Wizard. The Internet Connection Wizard helps you to sign up an account.

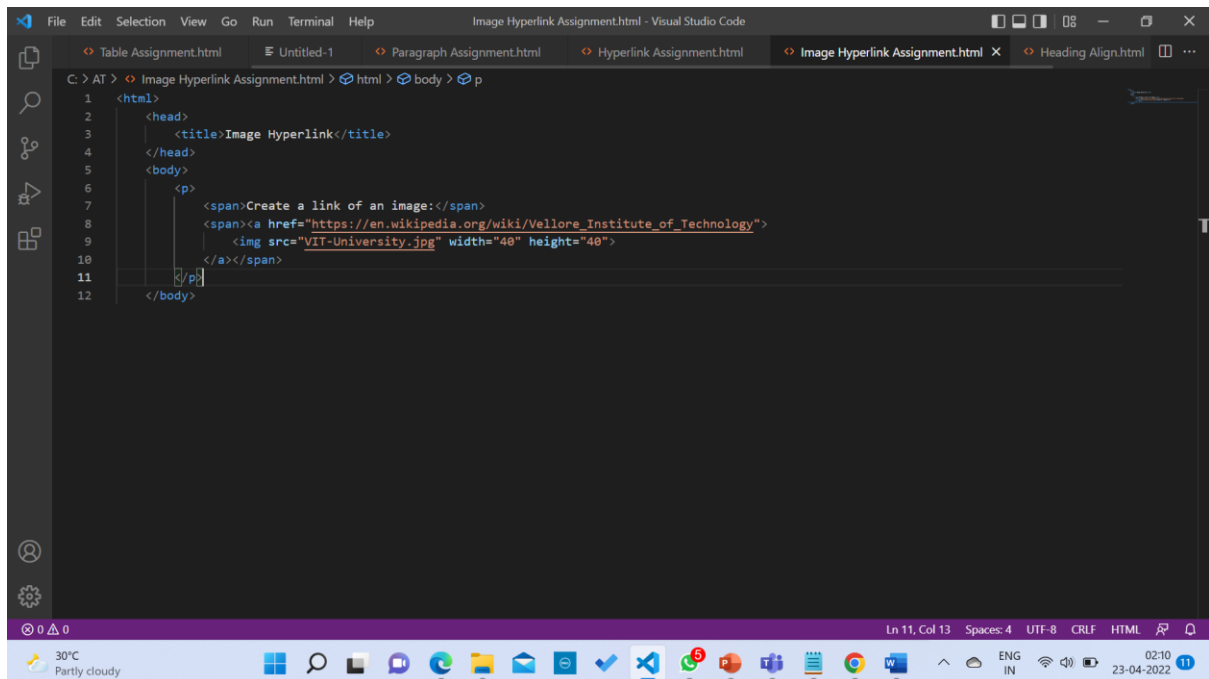

To start the wizard for the first time, double-click The Internet icon on your desktop. If you need to start an wizard again at a later time, click the Start menu, point to Programs, point to Accessories, **point to Internet Tools**, then click Get On The Internet.

The Wizard connects you to the Microsoft Internet Referral Service. This service provides you with a list of the service providers available in your area. To determine which service providers are available, the wizard send the following information to the Internet Referral Service:

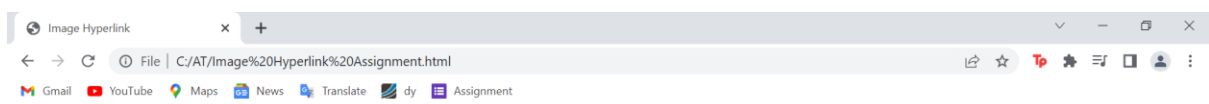

Field	Description
Country ID	The country from which you are dialling
Area/City Code	Your area or city code

## 5. Table

This screenshot shows the first 30 lines of the 'Table Assignment.html' file in Visual Studio Code. The code defines the HTML structure for a table with a title 'Table Assignment'. The table has a border of 1 and contains two rows of data. The first row lists five categories: Decimal, English, Spanish, Korean, and Binary. The second row lists five corresponding values: 1, One, Uno, Hanna, and 0001. The cursor is positioned at the end of the second row's data.

```
1 <html>
2   <head>
3     <title>Table Assignment</title>
4   </head>
5   <body>
6     <table border="1">
7       <tr>
8         <th>Decimal</th>
9         <th>English</th>
10        <th>Spanish</th>
11        <th>Korean</th>
12        <th>Binary</th>
13      </tr>
14      <tr>
15        <td>1</td>
16        <td>One</td>
17        <td>Uno</td>
18        <td>Hanna</td>
19        <td>0001</td>
20      </tr>
21      <tr>
22        <td>2</td>
23        <td>Two</td>
24        <td>Dos</td>
25        <td>Dool</td>
26        <td>0010</td>
27      </tr>
28      <tr>
29        <td>3</td>
30        <td>Three</td>
```

This screenshot shows the continuation of the 'Table Assignment.html' file, from line 29 to line 54. It completes the table structure by adding two more rows of data. The third row lists '4', 'Four', 'Quatro', 'Net', and '0100'. The fourth row lists '5', 'Five', 'Cinco', 'Daset', and '0101'. The table is then closed with the appropriate closing tags. The cursor is now at the end of the file.

```
29        <td>Three</td>
30        <td>Tres</td>
31        <td>Set</td>
32        <td>0011</td>
33      </tr>
34      <tr>
35        <td>4</td>
36        <td>Four</td>
37        <td>Quatro</td>
38        <td>Net</td>
39        <td>0100</td>
40      </tr>
41      <tr>
42        <td>5</td>
43        <td>Five</td>
44        <td>Cinco</td>
45        <td>Daset</td>
46        <td>0101</td>
47      </tr>
48    </table>
49  </body>
50 </html>
51
52
53
54
```
